EXPERIENCE

Docyt

Design Manager (Aug 2018 - Present)

Currently I lead the design team at Docyt for all product and marketing projects. I oversee design from ideation to production working with designers, product managers, engineers, marketing and accounting/operations team.

Before July 2021, I worked as UX lead and designed several modules in Docyt webapp and mobile apps and worked on multiple marketing design projects including the Docyt's website.

Times Internet Limited

Product Designer (Dec 2015 - Aug 2018)

Gaana.com

Executed a very successful design revamp for Android, iOS and web app. Worked with product team to improve navigation, queue consumption, search usability and other modules.

Stash

Did end-to-end design for SpaceUp app and Stash app. Also did landing pages, branding and marketing graphics work.

BrainBaazi

Crafted UX of the product. Did quick prototypes. Designed Android and iOS apps alongwith a web Dashboard. Laid branding foundations.

Fouch

Designer & Front-end Dev (May 2015 - Dec 2015)

Did the full stack design and front-end development for two projects. Optimized web applications to maximize performance.

SKILLS

Design skills like wireframing, UI design, interaction, prototyping, and illustration.

UX Methods like contextual inquiry, think-aloud, competitive analysis, heuristic evaluation, usability testing.

Tools like Sketch, Figma, Invision, Adobe Creative Cloud, Principle, Zeplin, Procreate and many more.

Soft skills like design leadership, interviewing, management, mentorship, product strategy, recruiting, teaching etc.

EDUCATION

NIT Rourkela

Biomedical Engineering (2011-2015)

Dropped college in final year of engineering to pursue design as career.
